We stand behind our products 100 percent. Please visit our website tacomarine.com for more detailed information on a wide variety of products and to register your new product for warranty.

Box Includes

- 1 CLAMP MOUNT

TACO Handy Tips

- WHILE UNLIKELY, TO PREVENT LOSS, DAMAGE OR INJURY, WE HIGHLY RECOMMEND THAT YOU ATTACH A SAFETY CORD DIRECTLY FROM YOUR SHADEFIN MINI TO A SECURE LOCATION IF THE LOCATION YOU ARE CONNECTING THE MOUNT TO WOULD RESULT IN THE FALL OR LOSS OF YOUR SHADEFIN MINI SHOULD THE MOUNT LOOSEN AND/OR DISENGAGE.
- COMMON USES FOR THE CLAMP MOUNT INCLUDE DECK RAILS, GRILLS AND SQUARE RAILS.

1 LOOSEN SCREWS

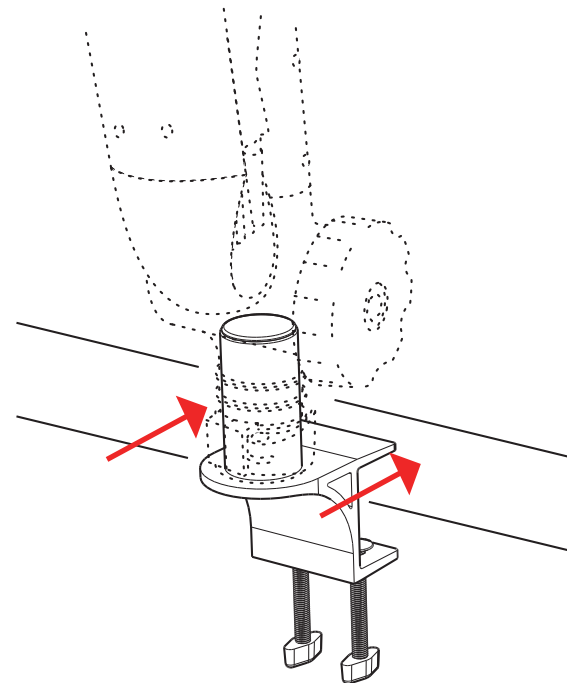

After identifying a sturdy location for the Clamp Mount, rotate the screws counterclockwise.

2 SLIP CLAMP MOUNT ONTO MOUNTING LEDGE

With screw adequately loosened, slip the clamp mount into position. Tighten screws as securely as possible by hand. Overtightening may damage the mounting surface. As the screws become tight, alternate between each screw for final tightening. Similarly, when removing the mount, begin by alternatively loosening each of the screws until they become loose enough to remove the mount.

3 INSTALL SHADEFIN MINI

Now place the ShadeFin Mini assembly onto the vertical post of the bracket, and lock in place. Refer to the ShadeFin Mini manual on tacomarine.com for detailed instructions.

NOTE: It is recommended to orient the ShadeFin Mini in the same direction as Clamp Mount. Orienting it away from the mount could cause slippage of the mount.
