

OUTRIGGER LINE CADDY

Halyard lines, while critical for catching fish, can be frustrating to keep neat and organized. Our Line Caddy provides a simple option to keep them tamed. Its simple to install design is a must to add to your outrigger system collection. Adjustable to your specific rigging, all that's needed is to install the Line Caddies with the Caddy ears facing opposite each other to your desired length, and wrap the excess line around them to keep your halyards tidy.

FEATURES & BENEFITS

- ▶ Fits all TACO Marine Outrigger Poles
- ▶ For 1-1/2" poles, we recommend removing the rubber spacer
- ▶ Adjusts to desired distance depending of your needs
- ▶ Easy installation
